work experience

JUL 2020 – SEP 2020
PRODUCT DESIGN INTERN
Navigating Cancer

Worked with product managers and senior designers to increase patient engagement product. Identified patient pain points and needs through literature review, surveys, and interviews. Developed prototypes and concept tested potential features. Presented findings and feature recommendations to the CEO and other stakeholders.

OCT 2020 – PRESENT
DESIGN RESEARCHER
Independent Study

Designing resistance efforts against the aftermath of postcolonialism systems in HCI pedagogy. Currated a corpus of 25+ research articles within the scope and in the process of facilitating a 3-week diary probe with 10+ participants, which includes participatory design.

MAY 2020 – PRESENT
DESIGN LEAD
Synbio for Everyone

Leading a team of 4 in formatting a 400+ page curriculum for publication. Curriculum is focused on improving accessibility and reducing education equity gaps at a local scale by making copies available to schools in low-income communities.

projects

APR 2020 – JUN 2020
UX DESIGNER
Proxxmu

Prototyped a mobile application solution that provides a safe platform for neighbors to seek help from each other. Conducted interviews and competitive analysis to understand and fill the gaps of existing products. Focused on connecting partners to encourage reliability and actionability and to cultivate mutual support.

JUN 2019 – AUG 2019
UX DESIGNER
Generation Now

Prototyped a web application solution to assist with the immigration application process. We focused on the accessible needs of people with limited resources, knowledge, and English. The main features include personalized timelines, a platform for communities to grow, and organization of relevant information.
